How to Build a Motorcycle leads you through all the key stages - from initially finding the right project for your skill level, to sourcing a base bike and safely taking on some full-on bike-building tasks. With clear, easy-to-follow instructions, proper advice and specially commissioned step-by-step illustrations throughout it is an ideal aid to getting your hands oily. Written by Gary Inman, the co-founder of independent motorcycle magazine Sideburn, and illustrated by Adi Gilbert who is best known for his bicycle and motorcycle drawings whose clients include Harley-Davidson, Guy Martin, Wired magazine, Sideburn magazine and Nike, this is a must-have for all motorcycle lovers. Read this book, even dip in and out where relevant. If it makes sense, schedule some time, clear your mind, pull on some old clothes, grab your toolbox and get going. The chapters in How to Build a Motorcycle will tell you how to complete a huge variety of tasks that will allow even the greenest of novices to get their hands dirty and start modifying with purpose. If you belong to this camp, start with some of the low-input, high-reward jobs, such as fitting bars, swapping the rear shocks or wiring in a new tail light. Even though these require

relatively little work, they'll transform the look of your bike, and completing them will fill you with confidence to undertake the more difficult jobs, such as fitting more modern front forks or even making your own frame. The book comes with a glossy 32-page section on finished bikes and is a reference and the perfect gift for all fans, from those who merely like to tinker, to riders taking on a full build. Includes bibliography and indexes / subject, personal author, corporate author, title, and media index. FLHR Road King (1995-1998), FLHR-I Road King (1996-1997), FLHRC-I Road King (1998), FLHS Electra Glide-Sport (1988-1993), FLHT Electra Glide (1995-1998), FLHTC Electra Glide Classic & Anniversary (1984-1998), FLHTC-U Electra Glide Classic-Ultra & Annivers The Commando was the main bike in Norton's range from 1968, and was produced until the demise of Norton Villers Triumph in 1977. The bike featured the unique 'Isolastic' system that rubber-mounted the engine and protected the rider from the twin-cylinder's vibrations. The model range provided the rider with a choice of touring and sporting models, as well as offering special police machines and off-the-shelf production racers. Commandos feature strongly in today's classic scene, and offer excellent performance and spares availability, as well as a vast range of improvements and updated components. This book looks at the history and development of the Commando, gives the specifications and outlines the model changes, and also offers the riding experiences of past and present owners. In addition there is a blow-by-blow account of the author's restoration of a 1971 750cc model that had been re-imported into the UK from America needing a complete rebuild. It is told in a decade-by-decade narrative treatment commencing in the early 1950s and running through to the 1990s. Motorcycle Maintenance. 84 pages, 83 black & white illustrations, size 8.25 x 11 inches. Published in the USA under the same title in 1951 by Floyd Clymer, the original publication was a pocket sized landscape format book and it is often criticized as difficult to read due to its small print size. Consequently, this edition was re-formatted into a larger and more conventional portrait size which has increased the text size by almost 40%. This publication provides the reader with an insight into the country, and the manufacturers, that were ultimately destined to succumb to the dominance of the Japanese motorcycle industry. A total of 33 different British motorcycle manufacturers and their various models are included and sadly, less than a handful of those 33 manufacturers survive today. A 'must have' resource for any motorcycle enthusiast and an invaluable reference for anyone interested in British 'iron'. Many of the motorcycles featured within are highly collectible today and the predominance of these early manufacturers no longer exist. This truly historical documentation of the glory years of British motorcycle manufacturing

has been out-of-print and unavailable for many years and is becoming increasingly more difficult to find on the secondary market. We are pleased to be able to offer this reproduction as a service to all motorcycle enthusiasts worldwide. Classic Honda Motorcycles presents an overview of Honda motorcycles produced from 1958 through 1990, including iconic models such as the CB77 Super Hawk, CB92 Benly, Dream, CB750 and many others.
