William Reese puts today's battles over standards and benchmarks into perspective by showcasing the history of the pencil-and-paper exam. Prenatal diagnosis, especially noninvasive prenatal testing (NIPT), has changed the experience of pregnancy, prenatal care and responsibilities in Israel and Germany in different ways. These differences reflect the countries' historical legacies, medico-legal policies, normative and cultural identities. Building on this observation, the contributors of this book present conversations between leading scholars from Israel and Germany based on an empirical bioethical perspective, analyses about the reshaping of 'life' by biomedicine, and philosophical reflections on socio-cultural claims and epistemic horizons of responsibilities. Practices and discussions of reproductive medicine transform the concepts of responsibility and irresponsibility. ANTI-HOROSCOPE: HUMAN "SOFTWARE" (Series of 12 books) Did you know that those born on June 4 leap years or June 5 common years are not only perpetual servants by character, who are flexible, try to please and anticipate desires ("The master is laughing—I'm laughing; the master is sad—I'm sad."), but also they will ask a great price of "the master" for being whoever the master wants to see? They are masters of illusions, lie with or without reason... Or, for example, did you know that those people, who were born on June 6th of leap years or on June 7th of common years are not only very flexible and display calmness of a Sphinx on their faces, but in matrimonial relations (and they always seek to have a family) they act like a night cuckoos and will cuckoo anyone over: unobtrusively, between the pillows they will get what they want "into their spouse's head?" And, these people are essentially untamable like cats, who always walk around by themselves. Hence the question: are you sure that you know people, whom you think you know as your own self? Yes, of course, you know them, if we take word-play into account. You really do know them, like you know yourself—that is: just as bad! You know your own and other people's masks and roles, but that is all. You do not believe this? Then, open this book and see for yourself! This book is for those people, who are fed up with "horoscopism," who are tired of listening to nonsense about themselves and other people from psychologists or their "all-knowing" relatives, friends and acquaintances. It will help you save not just some time in your life, but your whole life because otherwise you will spend your entire life on something that is a priori impossible. And, it is impossible not because you are idiots, but because Homo sapiens cannot fully know themselves and other people without an external (and, most importantly, objective) source. Perhaps that is the reason why humanity was left "factory instructions" to each one of us—the Catalog of Human Population. Yes, that is right! There exists the Catalog of Human Population, which you can open and find out everything about any person you are interested in (including yourself)! Information about people presented in this book (and in other eleven books in the series titled Anti-Horoscope: Human "Software") is from there, and not from your favorite horoscope.
